the Good Guys, grasped my Bic and clip board and stepped into the fray.

I said; "This sucker will rust out in two years!" Everyone stared at me. You see, if you paint over the grease and dirt every year before you show your car, most judges think it's factory undercoating, and I never had a rust problem, front shocks, Yes! But no rust.

I did note that from this moment on, I had more elbow room. As we all swooned over the XK 140, being a typical Jensen owner, I looked at the underside of the hood. My God! You can see all of the hammer marks from straightening the hood. Say, Mr. Senior judge, "I louvered the hood on my Jensen, it was cheaper than having it straightened. Do these hammer marks count?"

Oh, My God! What have I done? A new judge said; " Yea!, The hood strut is chrome, it should be grey". Then another said; " The coil should be chrome, it's black". "Yeh!" "And the bracket should be black and it's chrome."

Well, it became a feeding frenzy, with "the wiring harness has too much wire", and "British chrome nuts have a slight blue cast--these are American chrome hex nuts", or "get this, the radiator bolts are not fine threaded!" The best was; "the hood latch is painted grey".

I yelled; "Stop! Stop!" "What the hell is wrong with a grey hood latch?" "Well", said Senior Judge; "It's supposed to be cadem plated". "So what's cadem plated"? It's tin, you got to be--me. No! you see, the tin was so bad, they had to be replaced. Well, that makes sense.

At the end of this foray, the owner walked up and said; "How did my girl do"? As the others scurried away, I said; "Well, I need a ride for my final score". He said; "Jump in". As we were leaving the shop, I said; "you know, it's been 5 hours since I smoked a cigar." "Do you mind?" A long stare came over his face and he said; "Only if you have an extra!" This guy has a 100 point car! Hope I get to judge this class.

Thanks To " The Jag Wyre"

and ride, and refinement,
all in the one chassis."*

PERFORMANCE CAR, November 1986*

The new breed Jaguar XJ6 sedan moves swiftly and surely

With unique "pendulum" isolation, its fully independent suspension tunes out road imperfections without turning spongy. It achieves a near perfect balance of agile handling and supple ride.

Its new double overhead cam six cylinder engine, with 24 valves, provides authoritative response and extraordinary high speed capabilities. Yet its serenely silent cabin surrounds the driver and pas-

sengers with the Old World splendor of supple, fragrant leather and fine wood.

If you'd like to experience all of the world class qualities of the new XJ6, please call or visit our showroom. We'll be happy to arrange a test drive.

Judged Or Be Judged

Tom Mobley

Between jobs with lots of time, the house cleaned, cars waxed-rewaxed, entertaining my banker to keep the line of credit going and keeping ones dignity during interviews. Barb said; "Why don't you go to the JCNA Judges School and judge at the Palo Alto Concourse?"

I don't know, but I never met a judge I liked, maybe I can start a new cult of judges who actively work on their own cars?

Off to school I go! Now, the top guy is one of us, but the most excited are those who buy new, never show, and only under extreme pain, wash their own cars.

The next group are fat! Now, I am not referring to my waist size, but these guys have porters for their wallets. You know, the guy who tells you he stole his XK 150 for a mere \$35,000, and the restoration shop gave him a great deal-- out the door for a mere \$50,000. Not bad-- \$85,000 grand. I figured this guy was too small for sports in high school, and secretly wanted to rape the cheerleaders!

I wish I had this guy's wallet, but I settled for a cheerleader--25 years later, she has me going to judges school. Women power! Barb, has me convinced now that the boys aren't at home, it was really my idea to coach and referee football, soccer, hockey and feed hordes of grubby kids. Oh well!, on with our new adventure.

The lead judge starts us out on a 100 points restoration XK140. First remove all metal objects from your body. It took one guy 15 minutes for his gold chains. Myself, I removed my rubber coated Casio Diver watch-\$29.95 at
