The Prez Sez

Tonight your President attended a very lovely dinner party, courtesy of Candy and Ralph Steinberg, owners of Cloverleaf Auto Service. As you know, Ralph has been involved in the Interstate Great American Race with Dave Milling for some years. This year a regional three-day race will be held in our own back yard and this weekend, officials from the Texas Great American Race Headquarters were in town to lay out the course for the May 6, 7 and 8th Rally. In the past, I have heard many requests for a rally, and finally, it's time to come out and excel! There is something for everyone in this three-day event. Visitors will be traveling here from all parts of the country, and we are expecting an exciting turnout of unique cars and personalities. There will be expert and novice classes. The event organizers can use participants, check point people and, of course, interested spectators. Ralph said that no stop watches or special clocks will be allowed, so that should equalize things a bit. Please see the centerfold in this issue explaining further details about the Regional Interstate Rally the weekend of May 6, 7, and 8.

For those of you who failed to renew your 1994 membership, this will be your last Issue of the *Jaguar's Purr*. Hopefully, everyone re-enlisted. As of this writing, sixty people did not renew their memberships on time.

CHANGE! Please note! The Philadelphia Gran Prix scheduled for June 25 & 26 has been postponed until August. Your Club Directors had planned to do the All British Car Show in conjunction with the Vintage Show. More to come on this as information becomes available.

Last chance for name tags featuring DVJC logo. Last year, I requested the membership apply for new tags, but to date, only six members have applied. I will soon submit the order, so if you are interested and just have not gotten around to ordering, please do so as soon as possible.

For anyone out there with a Series One XKE Roadster, the Technalon 80003 car cover fits perfectly.

The Atlantic City Car Show and Auction was attended by 21 DVJC members. Eight Jaguars were offered at the auction, ranging from a beautiful 1956 XK 140 Coupe to a 1988 XJS Coupe. There were also three 1964 Roadsters. The highest offer I was aware of

1

Classified

For Sale --- Jaguar 1952 XK120 roadster No. 672912. Silver/black leather, steel wheels, wide white walls, full skirts. Unusual wood-fascia (Hofman option). Excellent for vintage competition or touring. \$28,000 obo. Fort Specials 283-6300 (Paul).

DATES, TIMES, AND LOCATIONS ARE SUBJECT TO CHANGE.
FOLLOW ALL NEW DATES AND FORMAT IN YOUR
JAGUAR'S PURR.

was 40K, which was turned down. Afterward a short business meeting was convened. Items discussed the AGM, the Calendar of Events, and a trophy was awarded to Alan Karpovick for the June 1993 Concours.

The Annual General Meeting which was held on March 5, 1994 was attended by myself and my wife, Jack and Bernice Sanft, Reggie and Paulette Ray, Dave and Kathy Hershey, and Joe Federico. The meeting was hosted by the Carolina Jaguar Club at the Adams Mark Hotel in Charlotte, North Carolina. Our Club did quite well in the awards department. The Hershey's, the Polis' and the Esterly's received trophies. The coveted Challenge Cup Trophy will be shared by the Esterly's and McPhearson's of Heart of America Jaguar Club. A special thanks to the Ray's for providing a beautiful Series I red XKE for display in the hotel lobby over the weekend.

I am happy to report that DVJC member and director, Jerry Schwartz is doing quite well now since his recent heart surgery. Next time you see him, ask him about his Warranty for the new "valve job"!

I hope to see you at the Rally May 6, 7 and 8. Please don't forget to attend our Concours on June 5. I am committed to a 10% increase in the number of cars to be shown. This can be achieved by simple methods. If you don't have a Concours Jaguar, we have a daily driven class. Give it a wash job and show up for the fun. I've already placed an order for beautiful sunny weather. See you there!

Kurt

What's New

A new engine oil licensing and certification system will help dealers, suppliers and consumers recognize good products from poor ones. The American Petroleum Institute and the American Automobile Manufacturers Association have joined forces to create standards and tests for improving the quality of oil. The new symbol is a starburst and the program will begin July 1, 1994. New, higher standards of quality call for testing three to four times more samples than the 325 currently selected.

The latest edition of *Jaguar Journal* rates our *Jaguar's*

Purr as number 5 nationally in its category, bound booklet format. I am pleased to accept this recognition as an award-winning editor. Perhaps next year it will be a Pulitzer Prize! The job can, at times, be hectic, but it is still fun. I feel that an important factor in having a good newsletter is to publish one that would be interesting to any Jaguar enthusiast no matter where he lives. This involves a lot of work in order to extract and compile information from other periodicals and magazines. From the feedback I have received, it seems that the favorites in our newsletter are Tip-Top-Tech-Tips and Tech Corner. It is somewhat difficult to continually produce new and interesting articles. I would like to thank Steve Kress for his contributions and assistance. I know that many of you out there have valuable and helpful information. Please, please contribute something so that the well does not run dry. Many of our articles are showing up in other Jaguar newsletters across the country, proving that emulation is the highest form of praise.

Editorially yours,

To paraphrase the old television show *Sea Hunt*, two-thirds of our car's interior is covered by leather yet how little we understand this world. Well, this is about to change! I am going to share some knowledge I have acquired in the process of working with leather in the restoration of two car interiors. This first lesson will introduce you to the language of "leatherese".

Grain: The natural pattern of wrinkles that creates the texture of the hide.

Full Grain: Leather in which the natural grain has not been mechanically altered.

Top grain: The uppermost layer of the hide. This is the highest-quality part of the hide.

Top full-grain: The uppermost layer of the hide in its natural condition without alterations to its grain pattern.

Premium select: The finest leather hide available, exhibiting few imperfections.

Splits: The underside of leather generally used for suedes.

Corrected grain leather: All hides have natural blemishes. These imperfections are buffed out and an artificial grain is embossed into the hide. This is the most economical leather and the sturdiest.

Aniline Leather: Leather that has been dyed with aniline dye. Only premium select top full-grain hides are dyed in this manner, which permeates the entire hide and results in a rich color.

Pigmenting: Coloring and coating the leather surface to cover imperfections and produce hides that are wear- and fade- resistant.

Sauvage: A mottled appearance, resulting from blending similar colors, that adds depth to the hide.

Glazing: A top-coating that involves the application of transparent resins to the leather that produces a high-gloss or matte finish.

Patina: The luster or shine that develops on leather with time and use.

Drum Dyeing: Also known as vat dyeing. This process assures full dye penetration. The hides are immersed in dye and tumbled in a steel drum.

Hand: A leather industry term for the feel of the leather.
