Club Members - Free (3-time limit)

Top 5 Reasons Why You Should Join Your Local Jaguar Club:

5. It's an ego-building experience to meet people who know less about their car than you know about your car.
4. If you are elected to the board of directors you get free meals and liquor at board meetings.
3. It gives you a chance to see if you are aging better or worse than people in your age bracket
2. If your *Jaguar* breaks down at 1:30 A.M. on a weekday, you can be sure a club member will come to your assistance promptly.
1. It feels good!!!

When using an air compressor to drive air tools it is important to keep the cylinder head as cool as possible. During hot summer months this can be achieved by using a window fan or other type of fan to direct a stream of air at the cylinder and cylinder head of the compressor. Thank you out to Steve Kress for this tip.

For those of you with 12-cylinder engines that leak oil be sure to check the timing chain plug on the front of the engine. Over a period of time this plug may shrink and allow oil to escape. The plug can be removed by using a thin screwdriver to pop it out after removing the holding bracket in front of it. Apply some lubricant to the new plug and pop it into place. Thank to *Jaguar's* Roar.
