The Prez Sez:

The 1997 Annual General meeting for J.C.N.A. is now history. We had beautiful weather in San Antonio, Texas. Our hotel, *The Menger* is across the street from the historic Alamo and within 2 blocks of the *River Walk*. Along the *Walk* are located many outdoor cafes. I heard many foreign languages spoken in this area as it is of international interest. Tour boats, packed with visitors including Jaguar Club members, ply the river frequently.

Our JCNA marathon meetings began promptly at 8 A.M. on Friday and Saturday and ended at 5 P.M. On Friday the J.C.N.A. executive meeting occupied the entire morning as many important issues were discussed. This was done in preparation for Saturday's A.G.M. which included all delegates. Afterward we participated in a training seminar for judges. We then discussed a proposed rally from San Antonio to Mexico City.

At 5:30 P.M. we toured the Dee Howard Auto Museum where over 20 restored cars were on display. Some in the collection were Pebble Beach winners. Other cars were in various stages of restoration and modification. I took many photographs and am anxious to show them to our club members.

On Saturday we had the actual A.G.M. which was attended by 104 Delegates from across the continent. Jack Sanft and I were the two delegates representing the D.V.J.C. Judy Stirrup the Jaguar Inc. liaison covered several topics. She said that Jaguar Inc. will be building a museum in the near future. Anyone wishing to contribute either materials or ideas is encouraged to do so. She also discussed the leaping Jaguar which is a copyrighted trademark. We are permitted to utilize it only in conjunction with the official J.C.N.A. logo. Two new classes were created. Class 17 encompasses the new Jaguar XK 8 and Class 18 (preservation)

which includes original *unrestored* cars which are over 20 years old. To enter this class a certificate of authenticity must be obtained from Jaguar Archives at a minimal fee of \$25 to Jaguar members. I have the paperwork pertaining to these new classes if anyone is interested. Other proposals were to combine Series I, II, III XJ into one class. This proposal failed as did an effort to combine all E-Types into a single driven class. A proposal to delete our present mechanical function section to just engine operation also failed.

The new 1997 Directors were announced with current President Jerry Parkhill being elected for a second hitch. The location of next year's AGM was confirmed as Denver, Colorado with a mid-March date.

At the awards dinner D.V.J.C. members Carl Bullock, Jack Donahue and Joe Federico received their National Awards. A new award in memory of Fred Horner was won by Fred Davis, a Canadian. Fred Davis received the award for winning a concours, a slalom, and a rally. Fred Horner's original Stetson hat cowboy hat was given away as a door prize. Tom Palisi received the Andrew Whyte Award for many years (36) of faithful service to J.C.N.A. He was quite surprised and almost speechless. Jack Sanft, our president emeritus, and previous award winner made the presentation to Tom.

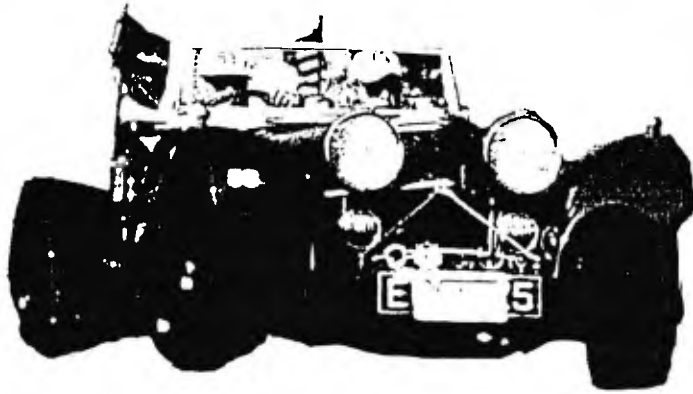

I had many requests from other Jaguar clubs for our May rally which will be held in Millville NJ. We have our sanction from J.C.N.A. and Jaguar Inc. has made a monetary contribution for our trophies. There will also be a parade of Jaguars on Friday night at 5 P.M. from Wheaton Center to Millville, NJ

In August we will have a bi-annual meet in the beautiful mountains of Stratton, Vermont. It will be sponsored by J.A.N.E and will include a hill climb, rally, slalom, party, and meetings. We have been invited to "convoy" with the New Jersey Jaguar Touring Group and the Washington D.C. Jaguar Club. See enclosed color centerfold.

Tip-Top-Tech-Tips

 Always check the fan clutch when you replace the water pump. Newer cars with electric cooling fans do not have fan clutches. The water pump and fan clutch share a common drive shaft. When the water pump bearings fail, the fan clutch bearings usually fail also. If a defective fan clutch is not replaced, the water pump may not operate properly and may fail prematurely.

 When purchasing tires it is possible to determine the date of manufacture. There is an oval imprinted into the sidewall of the tire that contains four numbers. The numbers 3296 would represent the 32nd week of the year 1996. Try not to buy tires that are more than 2 years old from the date of manufacture.
